Claymore Balanced Income CorePortfolio™ ETF

OVERVIEW

Claymore Balanced Income CorePortfolio™ ETF mandates a focus on ETFs containing dividend and income equities and fixed income securities.

The strategic allocation of the index is rebalanced quarterly by Sabrient to preserve the original profile.

The Claymore Balanced Income CorePortfolio™ ETF aims to give you:

- Attractive income stream
- Potential for capital appreciation
- Higher concentration of ETFs focused on income and dividend oriented equities offering a buffer against market volatility

RISKS & CONSIDERATIONS: Commissions, management fees and expenses all may be associated with investing in this Fund. Please read the prospectus before investing. The indicated rate of return is the historical annual compounded total return including changes in unit value and reinvestment of all distributions and does not take into account sales, redemption, distribution or operational charges or income taxes payable by any securityholder that would have reduced returns. The Fund is not guaranteed, its values change frequently and past performance may not be repeated. There are certain general risk factors inherent to an investment in the Claymore ETFs, including: (i) risk of error in replicating the applicable Index; (ii) risks relating to investments in equity securities; (iii) index investment strategy risk; (iv) risks relating to the performance of the Designated Brokers in relation to rebalancing of and adjustments to the applicable Index; (v) tracking error; (vi) potential difficulties in the calculation of the applicable Index and the possible termination of the calculation of the applicable Index or the applicable License Agreement; (vii) the possibility that Constituent Securities of the applicable Index may be cease traded, which may impact the exchange and redemption rights of the Units; (viii) fluctuations in the NAV and NAV per Unit of the Claymore ETFs; (ix) the possibility that the Claymore ETFs will be unable to acquire or dispose of illiquid securities; (x) risks associated with the use of derivative transactions; (xi) counterparty risks associated with securities lending; (xii) the Units may trade in the market at a premium or a discount to the NAV per Unit and there can be no guarantee that Units will trade at prices that reflect their net asset value; (xiii) potential conflicts of interest; (xiv) changes in legislation, including tax legislation; (xv) changes in the taxation of the Claymore ETFs; (xvi) the current absence of a public trading market for the Units; (xvii) the Claymore ETF's lack of operating history; (xviii) index investment strategy risk; (xix) changes in dividend policies; (xx) foreign investment risk; and (xxi) interest rate risk.
